EASTERN CONNECTICUT SMITH COLLEGE CLUB

Members Have Packed Ten Boxes of Clothing and Made Many Knitted

A meeting of the Eastern Connecticut Smith college club was held on Saturday afternoon at the rooms of the Y. W. C. A. in New London with a large attendance of members and invited guests. A report of the work which the club has been doing this winter for the benefit of the Smith College Relief Unit was read by the secretary, Miss Eunice H. Gulliver. Ten boxes of second-hand clothing have been sent off and four boits of material for peasants clothes. Besides, nearly one hundred knitted articles have been made; nine sweaters, eight baby sacques, fourteen hoods, forty-one Belgian caps, six saques and nineteen baby caps.

After the reading of the report there was an informal address by Miss Helen Rand Thayer of Portsmouth, N. H., chairman of the Alumnae Unit committee, in which she told a most interesting story of the experiences of the group of Smith women seventeen in number, who went over to France last August for the purpose of doing relief and reconstruction work in that portion of the country evacuated by the Germans after an occupancy of three years. The district assigned to them by the French government covered thirty-six square miles in what was once the richest farming area of France. Its sixteen villages contain a population of two thousand, consisting entirely of children, old men, and ald women. At their houses are winted to the statistics dealing with the spiritual condition of the parish.

Spiritual Statistics by St. Patrick's church say south the westing be added-was in place in the vesting and non-mentation are in the restions, when the national colors, the instruction are in the vesting and ornative of the boys there in black. All reading the list are requested to pray for the boys there maned.

From the pulpit during the high mass Rev. John H. Broderick, rector of the church, referred to the honor list, statistics placed in the church as soon as he feels sure the exact number of young men in the faderal service has been secured.

Yesterday was the second Sunday after the Epiphany, the gospital pr Manufacturers closed Mondays are requested to send employes and motor trucks to help unload and distribute freight from local freight yards, rea population of two thousand, consist-ing entirely of children, old men, and old women. It has been the aim of the reletif workers both to bring them supplies and to help them reconstruct their social life. One of their three motor trucks is used as a traveling store and makes regular trips through the villages, carrying provisions and goods for which the people pay with money which they have kept hidden n ithe Workers Have Boosted The Total to ground. The two doctors in the unit have opened a dispensary, and besides make calls upon the sick. In two weeks they made four hundred and sixty-two visits, seeing one hundred and seventy-five patients. A com-munity farm has been started on which live-stock is kept to be sold to the people who are beginning to stock up their own little farms. Some schools have been opened for the chil-

dren, and regular recreation is pro-vided for them. The introduction of books and games into their starved lives has already helped them to be come more nearly normal again. The work of the Unit, for which \$60,000 will be expended the first year is supported by the contributions of Smith alumnae and their friends. That it is of great value is shown by the testimony of the Red Cross and of the French officials, as well as by that of many Americans in France.

WOMAN'S IMPORTANT PART IN HELPING WWN THE WAR

With Annual Statement of Parish Spiritual Statistics by St. Patrick's Rector.

Continuing his annual statement.
Rev. Father Broderick announced the statistics dealing with the spiritual condition of the parish.
During the past year there were 177, baptisms, 174 of children and 3 of adult converts. There were 274 confirmations, 104 first communions and 101 deaths.

There were fifty marriages, of which number 34 were of Catholics the other 16 being what are called mixed mar-riages, in which one of the parties is of some other faith

Church Against Mixed Marriages. Just how distasteful these latter unions are to the Catholic church was emphasized by Father Broderick, who considered at length the danger to faith of a Catholic who weds one out of his own church, and more particularly the danger that children born of such unions should be lost to the church. In this matter he urged parents to see to it that their daughters and sons do not engage to marry people of other beliefs; and he expressed the hope that no such number of the hope that no such number of mixed marriages be recorded in St Patrick's parish for the coming year If such marriages must be performed if such unions are inevitable, better, o course, he said to have them per-formed in the church; but the teaching of the Catholic church is directly against them, and Catholics contract-ing such marriages are liable to regret their mistake, in 99 per cent. o

Matter of Catholic Education. There are 390 pupils registered in the parish school, the number having fallen off somewhat, due largely to families having moved from town during the temporary industrial depression. There are 298 other children of the parish who are in other schools where, the rector said, they are de prived of their chance for a religiou education and systematic training in their Catholic faith. All such chil-dren can receive in this training is what is given them each Sunday aft-er the 9 o'clock mass, and by one of er the 9 o'clock mass, and by the priests of the parish every Sat-urday morning. In the parish school relicious education on the contrary, religious education-goes along parallel with secular in-struction. During the past year the priests of the parish have made 1915 sick calls —367 in homes, 648 in the public in-stitutions — hospitals, sanatarium. and almshouse, and in nearly ever-instance the sacraments were administered. This is a pretty good proof, Father Broderick declared, that his two curates, Rev. Peter J. Cuny and Rev. Myles P. Galvin have been kept

busy during the year.

Reference was made to the increasing number of Holy Communions as a practical evidence of faith; many ap-proach the holy table each month. others weekly, a good number receive the Bread of Life into their souls each morning. This fact the rector said was encouraging and most consoling

A Hint to The Lukewarm. Attendance at Holy Mass has been good during the year and the hope was expressed that those who have been careless in living up to the rerufrements of their religion during 1917 will show a more practical form of Catholicity for the coming twelve months.

The Duty of Citizens. In closing his announcements, Fath In closing his announcements, Father Broderick referred to the responsibilities of his people as Catholics and citizens during the crisis in world-history through which the country is passing. Safeguards Health of The Children

Constipation, or inaction of the bowels, is a great menace to health. Cathartic or purgative remedies should never be given to children as the violence of their action tends to upset the entire digastive system. A mild laxative is far preferable, and the combination of simple laxative herbs with pepsin known as Dr. Caldwell's Syrup Pepsin, and sold in drug stores for fifty cents a bottle, is highly recommended. This preparation contains no opints, narcotto, or habit-forming drug of any description, is mild and gentle in its action, and brings relief in an easy, natural manner. Its pleasant taste appeals to children and they take it reedily.

Thousands of mothers have testified to the merit of Dr. Caldwell's Syrup Pepsin, and in countless homes it is the standard family remedy. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.
